The downtown Warren street station of the Manhattan Railway Company. This elevated station was completely destroyed and has disappeared as though it had never existed. The uptown station was gutted, and though still standing, has been rendered useless.

WOULD BAR EXPLOSIVES.

Commissioner Scannell Proposes Drastic Measure of Safety.

Fire Commissioner Scannell made the following statement to an Evening World reporter this morning: "The public can rest assured that this department will investigate yesterday's catastrophe as rapidly as possible. Although the Tarrant permit limited the storage of explosives to the vault under the sidewalk, it would seem that explosives were stored on the upper floors. Some explanation of this apparent violation of the permit is what our inspectors will seek.
The law governing and regulating the storage of explosives in Greater New York is as good as a one as can be drafted. It cannot be improved upon.
Can't Eliminate Danger.
"To absolutely eliminate all danger from this source we would have to enact legislation driving all manufacturers who use and handle explosives out of the city.
"I understand to do something in this direction when I first became Fire Commissioner, but the drug store proprietors immediately arose and protested. They said that the law obliged all grocers who sell illuminating oil to pay \$10 per annum for a permit to store kerosene, and that the law also obliged all grocers to pay \$10 per annum for permits to store explosives.
"There are some 2,000 drug stores in this city. All of the larger ones are in my judgment, just as dangerous to the public safety as the wrecked Tarrant establishment.
"Inspections are made regularly and frequently. One hour after the visit of an inspector, however, they disappear to bring an ounce of explosive material into the city limits.
"The present laws regulating the handling of explosives are as complete as they can be.
"I don't want to be understood as saying that small drug stores are dangerous concerns. There are, however, in this city some ten or twelve manufacturing drug establishments which are as big a menace to the public safety as the Tarrant establishment.
"Some time ago I suggested that these factories should be either located outside of the city limits or else enclosed in buildings standing apart and

SISTER SAVED FROM DEATH BY BROTHER.

May Dunkelmann Was Rescued from the Meklem Bank Ruins.

May Dunkelmann, who was employed in the Meklem Bank, in the basement of the Irving National Bank building, owes her life to her brother Daniel and to Frank Heckerly.

In the bank. Blinded by smoke, smothered by falling plaster and choked by the dust, she partly lost consciousness and would have been buried in the ruins but for her brother and Frank.

These two young men also helped to rescue Miss Ella Van Deen, another bank employee.

Dunkelmann works in Croker's stationery store around the corner.

WHAT CAUSES DEAFNESS.

The Principal Cause Is Curable but Generally Overlooked.
Many things may cause deafness, and very often it is difficult to trace a cause. Some people inherit deafness. Acute diseases like scarlet fever sometimes cause deafness. But by far the most common cause of loss of hearing is catarrh of the head and throat.

A prominent specialist on ear troubles gives as his opinion that nine out of ten cases of deafness are traced to throat trouble; this is probably overstatement, but it is certainly true that more than half of all cases of poor hearing were caused by catarrh.

The catarrhal secretion in the nose and throat finds its way into the Eustachian tube and by clogging it up very soon affects the hearing, and the hardening of the secretion makes the loss of hearing permanent, unless the catarrh which caused the trouble is cured.

All those who are hard of hearing may think this is a little far-fetched, but any one who has noticed how a hard cold in the head will affect the hearing and that catarrh, if long neglected, will certainly impair the sense of hearing and ultimately cause deafness.

If the nose and throat are kept clear and free from the unhealthy secretions of catarrh, the hearing will at once greatly improve and any one suffering from deafness and catarrh can satisfy themselves of this point by using a fifty-cent box of Stuart's Catarrh Tablets, a new catarrh remedy which in the past year has won the approval of thousands of catarrh sufferers, as well as physicians, because it is in combination with a safe and pleasant form of opiate and is as safe and pleasant for children as for their elders.

Stuart's Catarrh Tablets is a wholesome combination of blood-purifying, cathartic and similar antiseptics and they cure catarrh and catarrhal deafness by action upon the blood and mucous membrane of the nose and throat.

As a physician aptly expresses it: "You cause whether you are getting benefit from Stuart's Catarrh Tablets; improvement and relief are apparent from the first tablet taken."

They cost but fifty cents for full sized package and any catarrh sufferer who has wasted time and money on sprays, salves and powders will appreciate to the full the merit of Stuart's Catarrh Tablets.

BROADWAY AND 26TH ST.

Bryan Says

In his letter of acceptance that "it is easier to lose a reputation than to establish one." Good! Give us credit for keenness enough to see the sense of that proposition. When we tell you that what is generally known as a \$30 suit or a \$10 Overcoat can be duplicated by us for \$15, bear in mind that we have a solid reputation, built up by years of good work, and we can't afford to damage it by misstatements.

SUITS OR \$15 Made to Order
OVERCOATS \$15 Perfect Style. CONSIDERED VALUE \$30.00.

Fresh importations in Striped Cassimere and Unfinished Worsteds, in special designs and colorings, including the new shades of Cobweb Gray, London Fog and Deep Indigo, also Black Vicuna, Thibet and Diagonal that will not gloss. Heavy weights in Melton, Kersey, English Worsted and Whipcord.

Everything done on the house premises by skilled men tailors.

Good Lace Curtains
at Less Than Half Price.
This is the Lace Curtain Sale of 1900 beyond a doubt. Nothing like it will be offered here or elsewhere, in all probability, for many months to come. Here are the particulars: Two of the largest makers of Nottingham Lace Curtains decided to discontinue the manufacture of certain styles of high grade curtains, desiring to introduce newer styles. They sold 15,000 pairs to us at practically our own prices or we would not have entertained their proposition. The patterns and designs are many and varied, and extremely handsome—so handsome, in fact, that we wonder why their manufacture was discontinued. They are all brand new, spotless and absolutely perfect. You'll search in vain for their equals in quality, beauty of design and prices. It's the "homefitters'" opportunity. Just note a few of the bargains:

\$1.75 CURTAINS in this sale at, per pair, 75
\$2.00 CURTAINS in this sale at, per pair, 95
